Activities:

- Speakers will explain Minnesota’s legislative system, identify key legislative committees, and discuss effectively presenting your message to legislators.
- Representatives from the MACPO and MCA Legislative Committees will present their 2010 Legislative Platforms and Initiatives for discussion.
- Committee members from MACPO and MCA will assist you in meeting with your local legislators by directing you to their offices, providing background information on key corrections issues, providing copies of organization platforms.
- Tours of the Capitol are available.
- Committee hearings which may be taking place are accessible for your observation.
